circulation & distribution

In its first year, *American Moms the magazine* will have a controlled circulation of approximately 75,000 families and health-care providers throughout Tennessee with each issue. *American Moms* will be printed four times in its inaugural year, increasing to six times the following year.

Strategic distribution is important to us. *American Moms* will never be randomly dropped. Each of the 75,000 recipients will be hand-picked to ensure that our magazine is optimally distributed and reaches our intended audience quickly and effectively. This distribution strategy

means that your advertising dollars will begin working immediately.

Readers will choose *American Moms* for its name and its attractive, upscale design. More importantly, readers will choose it because the quality editorial will speak to their heart—mom to mom, sister to sister. As a result, your ads will directly reach our readers, a captive audience of potential customers who are interested in your product. Further, our website can compliment your print ads for consumers who want to learn more about your product offering.

Beyond being in the hands of over 75,000 moms and healthcare

providers, *American Moms* can be found where moms are found — local grocery retailers, prenatal classes, maternity and infant shops, local YMCAs and other sports facilities, bookstores, hair salons, and the offices of OB/GYNs, family care practitioners, pediatricians, pediatric and family dentists, health care providers and educators.

Circulation and distribution will also be achieved through online subscription, thereby reaching a wider audience. Consider optimizing your sales through online advertising with *American Moms* at www.americanmoms.com.

publisher

Passionate. Driven. Committed. Those words barely scratch the surface in describing **Sonja Mallery**, publisher of *American Moms the magazine*.

With an MBA from Middle Tennessee State University, Sonja was employed for over 11 years at two Fortune 100 companies. During her tenure, she held several sales management positions and won numerous sales and leadership awards, culminating with the prestigious 2007 CEO ACE Award.

In 2003, Sonja took on her most distinguished role yet — Mommy! She and her husband are parents to two children. Being a working mom isn't easy, but Sonja rose to the challenge, combining her business experience and her passion for family to ultimately create *American Moms the magazine*.

In her words: "I want to put my professional skills and energy into something I am truly passionate about — raising my kids and being a mom. The magazine does this by allowing me to provide helpful information and advice, and reaching out to ALL moms. I truly believe we are here to be supportive to other people. What better forum than *American Moms*?"
